

Teammate grading form

In the spaces below please fill in letter grades (A+, A, B+, ..., F) for each of your group project teammates *and yourself* in random order and very briefly explain why you are giving them that grade. This should be anonymous, so please do not indicate who you are in any way. No one wants to know. ;)

Group number or name: BUBBLE cha

Name	Grade (A+ to F)	Explanation
Camryn Foppe	A	Camryn properly completed her assigned group work, and communicated promptly with the group while trying to resolve issues ranging from internet problems to inconsistencies within our analyses.
Kristina Danilenko	A	As with Camryn, also completed assigned section of the group work and helped propose ideas/solutions to problems or miscommunication between the group members.
Varya Svorob	A+	Very consistent in setting the groundwork for the group project, as well as strong initiative when communicating with the professor/other group members in case of misunderstandings or confusion with the assignment. Submitted detail-oriented work and encouraged cross-reading between other members' sections to ensure our analyses were accurate and smooth.
Vanesa Magana	A+	Vanesa also took strong initiative with managing groupwork and ensuring that all members were on the same page. Helped spark conversation/discussion/debate when reviewing our data and arguments in the analysis, making our final submission stronger.
Alix Hegewald	A	Similar to Vanesa, Alix had clear communication skills during the project and didn't hesitate to elaborate on points of confusion/differing information within our consolidated analysis. Vanesa and Varya were the two key members that really helped keep the rest of the group on track, explaining the difference between an A and A+ grade.
