

Teammate grading form

In the spaces below please fill in letter grades (A+, A, B+,..., F) for each of your group project teammates *and yourself* in random order and very briefly explain why you are giving them that grade. This should be anonymous, so please do not indicate who you are in any way. No one wants to know. ;)

Group number or name: Team 23

Name	Grade (A+ to F)	Explanation
Sungju Jo	A	She played her given role well and especially worked hard on developing the scenario. However, the direction of the scenario she insisted was a little out of way, and the overall work process was slower than others. She didn't respond to the group chat as fast as others, so I think these points made the overall team project slow down a bit.
Minji Kim	A+	She played her role effectively and corrected the previously wrong direction of our group scenario. She was quick at reflecting feedback and overall, there was no major disruption point by her to the team project.
Hyeona Kim	A+	She played her given role well and tried her best to contribute to the group project. She was relatively fast in responding in the group chat and reflected the given feedback on her work immediately. There was no major disruption point by her and the overall process was smooth.
Gaaye Lee	A	She played her role effectively and her work process was the fastest. However, she seemed to be focusing more on other courses' assignments and couldn't allocate sufficient amount of time on this project. This did affect the overall process.
Jiho Han	A+	She played her given role well and led the overall group project effectively. She was comparatively fast in responding to the group chat and carrying out her work. There was no major disruption point that ruined the overall team project process.
