

# Teammate grading form

In the spaces below please fill in letter grades (A+, A, B+,..., F) for each of your group project teammates *and yourself* in random order and very briefly explain why you are giving them that grade. This should be anonymous, so please do not indicate who you are in any way. No one wants to know. ;)

**Group number or name:** Dong Hee's group

Name	Grade (A+ to F)	Explanation
Hee Jai Lee	B	He just came into our group without members' agreement. It was the time that we already made the scenario. And he made questions about our scenario in our group chat that already answered by professor. We need to repeat and explain our scenario to him. He did his part well, but he didn't start with us.
Dong Hee Kim	A+	He organized the group first with members. He participated all the online, offline meeting. He made a platform for sharing our scenario. He was intersted in education and suggest the topic of scenario first. He perfectly finished his part of group work writing.
Darius Noel Herrmann	A+	He always gave feedbacks for members. Even though he got the worst(for our scenario) data source, he tried to help other student and keep tracking our work. I could see he tried his best with his data
PHUNG THANH LY,	A+	He made a good reference for flowchart and gave us helpful feedbacks. He made google docs platform for our group paper. It was very helpful for sharing our outcomes. He also reserved room for our offline meeting. He also helped others when they have problems.
Heebin Son	A+	She always choose the part after people do. She did remaining part for members, and she perfectly did. When we gave her feedback about her work, she just revised it directly. She also said thank you to members when someone contribute to group. I know she is busy with TA job, but she participated the group work actively.
