

Teammate grading form

In the spaces below please fill in letter grades (A+, A, B+,..., F) for each of your group project teammates *and yourself* in random order and very briefly explain why you are giving them that grade. This should be anonymous, so please do not indicate who you are in any way. No one wants to know. ;)

Group number or name: TALAN, JEMMA

Name	Grade (A+ to F)	Explanation
Nayoung Kang	A+	She was very active throughout the project and helped lead the team in a positive way. She organized the group work well, helped divide the roles among members, and made sure the team stayed on track.
JEMMA LEE	A+	She contributed a lot to developing the team's scenario and improving the final project output. She took responsibility for the quality of the report and helped make the final result more complete and well-organized.
shiqi liu	B+	She participated in the project and did contribute to the team, but she tended to be more passive during the process. Compared to other members, her involvement in the final output was somewhat limited..
LIU XINYUAN	B+	She took part in the project and contributed when needed, but she was not very proactive overall. I appreciated her participation, but I think she could have been more engaged in the team process.
